

Paint Mines Interpretive Park

Located in the northeast section of the County near Calhan with approximately 750 acres, the Paint Mines have evidence of human life as far back as 9,000 years ago. The colorful clays were used by American Indians. The park features fantastic geological formations including spires and hoodoos that were formed through erosive action that created incised gullies and exposed layers of seinite clay and jasper. The park includes a restroom facility, four miles of trails, interpretive signage, and many natural wonders.

Location & Hours of Operation

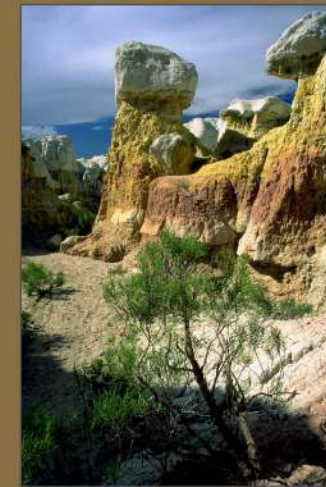

29950 Paint Mines Road
Calhan, CO 80808

Park Hours:
Dawn to Dusk
For Additional Information:
Call (719) 520-7529
