

Driving to the Access Points

Coyote Buttes South is accessed from the Lone Tree, Paw Hole, and Cottonwood Cove Access Points near House Rock Valley Road (BLM 1065). To get to House Rock Valley Road from Kanab, UT, take Highway 89 east for 38 miles. From Page, AZ, take Highway 89 west for 36 miles. The south end of House Rock Valley Road intersects Highway 89A 13.5 miles east of Jacob Lake, UT. The Lone Tree parking area for two-wheel-drive vehicles is 19.8 miles south of Hwy 89.

A high-clearance four-wheel-drive vehicle is **required** to reach Paw Hole and Cottonwood Cove Access Points. All four-wheel-drive routes, even those suggested by BLM, are used at your own risk. Four-wheel-drive routes marked as "not recommended" are substantially rougher or have long stretches of very deep sand. Even House Rock Valley Road may be impassable after rain or snow.

If you are unsure of your vehicle's capabilities or simply don't want to assume the risk, BLM recommends hiring an authorized guide. Information on permitted guides may be found at BLM visitors centers or on our website.
