

## Area Camping

Spending a night beneath the clear starry sky of White Sands National Monument may be a very tempting prospect, but our primitive backcountry campsites are only available to those who don't mind the one mile hike back to the sites. For those who prefer to sleep in their vehicle or RV, there are many campgrounds within a relatively short distance from the monument. Below you will find a brief overview of some of these local campgrounds, including their contact information. Please contact the sites themselves for more detailed information. Further camping information can be found at [www.recreation.gov](http://www.recreation.gov) and [www.icampnm.com](http://www.icampnm.com).
