

## Alamo Canyon Primitive Campground

Welcome to Alamo Canyon Primitive Campground! This campground is remote and scenic, located at the mouth of a beautiful and historic canyon. With few sites and direct access to an easy trail, Alamo is an excellent location for people seeking a more isolated camping experience.

### Camping Regulations

**Permits are required** and can be obtained from the Kris Eggle Visitor Center. Place permit on the dashboard of your vehicle so the number can be read through the windshield. Unregistered vehicles are subject to citation or towing at the owner's expense.

**Entrance fee** must be paid to camp.

**Length of stay** is limited to 7 consecutive days, with a break of at least 30 days before a new permit can be issued.

**Camping is limited** to the four established sites, with a maximum of 20 people for the entire campground.

**Campers must park** within the space provided at their assigned campsite.

**Motorhomes and trailers** are not permitted.

**Generators are not allowed.**

**Fires** are not permitted.

**Charcoal** may be used in grills.

**Quiet hours** are 10 pm - 6 am

**Checkout time** is 11 am.

**Pets** are permitted at Alamo Canyon Primitive Campground, but must stay within the campground area and be under physical restraint at all times. Pets may not be left unattended in campsite and are not allowed on trails.

**Permit extension** is possible if payment is made no later than 9 am on the expiration date of the permit. After 9 am the site may be assigned to another camper. Extensions must be secured at the Kris Eggle Visitor Center.

### Services

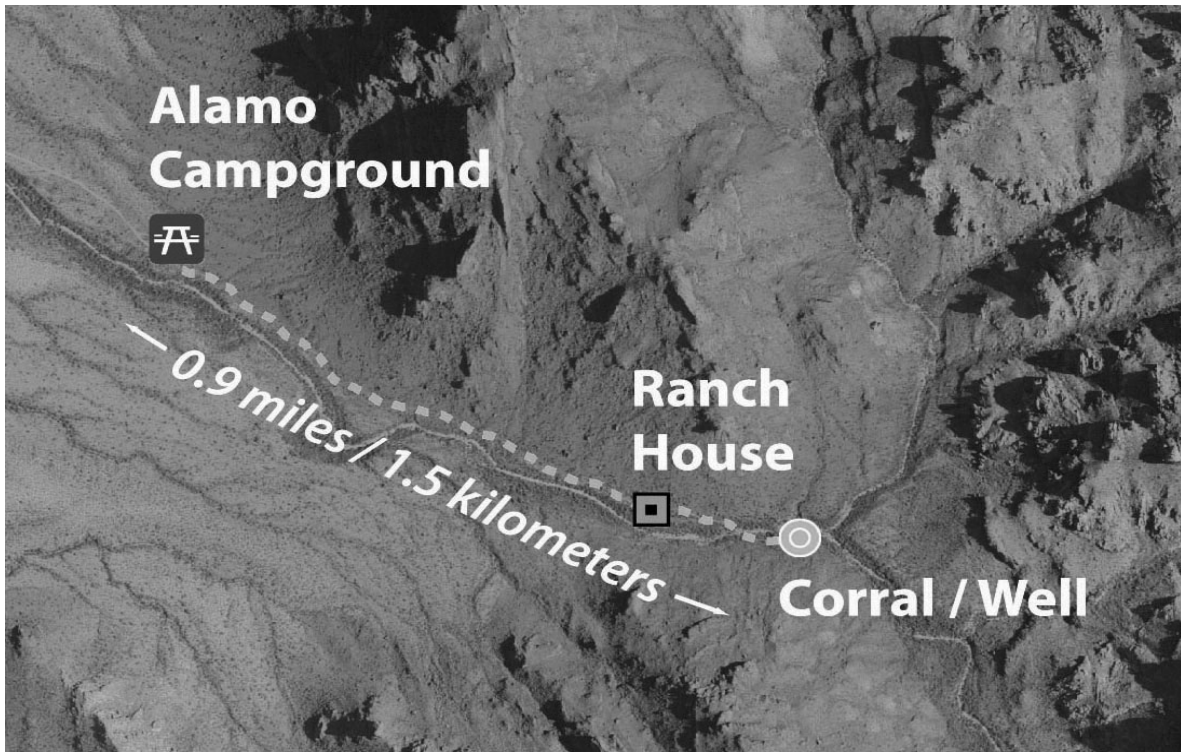

**Facilities** provided include charcoal grills, picnic tables, pit toilet, and trash cans.

**Alamo Canyon Trail** begins at the campground. This easy walk is 2 miles roundtrip and takes approximately 1.5 hours. The trail winds along the bottom of Alamo Canyon, which is an excellent birding location. At the end of the trail is a historic ranch.

**Parking** is available for day use in the designated area near the pit toilet.

**Water** is not available.

**In case of emergency contact a Park Ranger or call 911**

## Staying safe in the desert

Carry and drink plenty of water; at least one gallon per person per day.

Sun protection is important. Remember to wear lots of sunscreen and protective clothing.

Ouch! Desert vegetation is spiky, so avoid contact. Spines may be removed with tweezers.

Flash floods occur instantly and are dangerous. Avoid washes when rain is threatening.

Never enter a flooded roadway. Wait for the water to subside and it is safe to cross.

Do not stick your hands or feet anywhere you cannot see. That is where snakes, scorpions, and spiders all hide.

Hike with a partner. Let someone else know where you are going and when you plan to return.
